2020 A-Z SOP

Abstract

A. Attention Getter Motivation動機及引題(科技進步…, research Interest)
B. But (However 挑戰)
C. Cure 解藥(we propose a novel scheme to address the challenges)
D. Development (我們的方法設計based on …)
E. Experiments (To evaluate our proposed scheme, we conduct experiments on …)
F. Findings (results show that…)

I. Introduction

G. General 現況(with the explosive growth of …xxx has great improvement)
H. However (挑戰, same as B… but longer …)
I. In literature (文獻中有關此問題的解,大分類 from old to new, simple to complex)
J. Judgement (評論各類方法優缺點, SWOT)
K. Keypoint (設計精神與novelty,再次強調major goals Contribution summary)
L. List the organization (文章結構交代)

II. Related Work

M. Methods (文獻中有關此問題的解,分類 from old to new, simple to complex)
N. New proposed (new trend, new novelty of the proposed scheme)
O. Organize (based on Judgement評論各類方法優缺點, SWOT 列表4x5table歸納)

III. Proposed Scheme (From PA to PM)

P.
PA= Aim = Statement目標
PB=Basedon/ bkground/Be focus on/Benefit
PC=Cure/Cause/ 解法及有用的原因
PD=Design架構 (paper 的設計是結合… 怎樣典範轉移成為這篇重點)
PE=Paper element (有哪些element)
PF=Formulation/ Foundation 功能

PG=Graph(架構圖說明)
PH=How (How they achieve the design goal)
PI= Implementation / Interaction among elements / flow chart or Pseudo code
PJ= Jump to an example
PK=Key points contribution
PL=Later how to do simulation
PM=Math proof

IV. Simulation

Q. Quality and Quantity (實驗量與性質指標, performance metrics)
R. Related method to compare (比較那些演算法)
S. Simulation Setup
T. Tuning what parameters in simulations
U. Useful results
V. Verify the effectiveness of our proposed scheme

V. Conclusion

W. What proposed (回顧研究意義動機研究挑戰)
X. eXcel (專精哪種情境, 演算法優點這篇文章解決的問題提出的Solution 及方法)
Y. Yields (產出, results show …. 實驗數據與模擬與結果簡述)
Z. Zen (結論與future work最後強調問題獲得怎樣的解決與結論觀察與研究貢獻
